

Re: Dynamex Supreme Court decision, We are asking that a hold be put on this decision as it applies to our business

Dear Representative: Writing a letter can be difficult for anyone but we need to be heard and this format is helpful. Please allow me to maintain my freedom. Please do not let me be put out of business.

I have been an independent contractor (truck owner operator) since

Why don't I want to be an employee?

Why do I like being an independent contractor?

In what way am I a legitimate independent contractor

Thank you for looking at my situation.
